Art Unit: 2661

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1.0 Claim 1 is rejected under 35 U.S.C. 102(B) as being anticipated by Pearce (U.S. Patent No.: 5,436,624).

Referring to Claim 1, Pearce teaches: Using optical fiber in a ring for a system per col. 3 lines 35-67 and per Fig 1.

Each of the RING BYPASS SWITCHING device has ports (hub ports) which are connected to corresponding END STATIONS (nodes) as shown per Fig 1. Each of the RING BYPASS SWITCHING device has a MONITOR (9, 10, 11, or 12 per Fig 1) which is an error detecting portion. The applicant broadly claims "loop failure initialization failure data" in both the claims and the specification. The MONITOR determines the characteristics of signals (loop failure initialization data) which are passed to the END STATIONS (nodes) against thresholds (determines if loop failure initialization error data is indicative of errors) per Fig 1. The CONTROL CIRCUITS (7 per Fig 1) based upon inputs from the respective MONITOR determines whether a respective BYPASSING SWITCHING device (switch) should allow signal to be sent to the END STATION (node) or to bypassed based upon whether the MONITOR determines or detects a fault or signal error (loop failure initialization indicative of a error as shown in Fig 2).

Response to Amendment

2.0 Applicant's arguments with respect to claim1 have been considered but are moot in view of the new ground(s) of rejection.

Refer to the above rejection for details.

3.0 Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2661

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
